

European Commission funding opportunities in support of health

September 2024

This document is meant to provide an overview on European Commission funding in support of health.
The website of the European Commission should always be consulted, as opportunities evolve over time.
Information included was collected from different European Commission websites.
Where available contact information has been included.

EU4Health

The EU4Health programme was adopted as a response to the COVID-19 pandemic and to reinforce crisis preparedness in the EU. The pandemic highlighted the fragility of national health systems. The EU4Health programme will bring a contribution to the long-term health challenges by building stronger, more resilient and more accessible health systems.

The EU4Health Programme has four general objectives representing the ambitions of the programme and ten specific objectives representing the areas of intervention:

Improve and foster health

- Health promotion and disease prevention, in particular cancer
- International health initiatives and cooperation.

Protect people

- Prevention, preparedness and response to cross-border health threats
- Complementing national stockpiling of essential crisis-relevant products
- Establishing a reserve of medical, healthcare and support staff.

Access to medicinal products, medical devices and crisis-relevant products

- Ensuring that these products are accessible, available and affordable.

Strengthen health systems

- Reinforcing health data, digital tools and services, digital transformation of healthcare
- Enhancing access to healthcare
- Developing and implementing EU health legislation and evidence-based decision making

- Integrated work among national health systems.

Horizon Europe

Horizon Europe facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges. It supports creating and better dispersing of excellent knowledge and technologies.

Horizon Europe is organised in different pillars, programmes, missions and partnerships.

Factsheet Horizon Europe:

https://research-and-innovation.ec.europa.eu/document/9224c3b4-f529-4b48-b21b-879c442002a2_en

Horizon Europe Pillar I

Excellent Science

The first pillar of Horizon Europe - Excellent Science - supports frontier research and breakthrough scientific ideas, teams up the best researchers from Europe and beyond and equips them with skills and world-class research infrastructures.

- European Research Council (ERC)

Applications can be made in any field of research. The ERC's grants operate on a 'bottom-up' basis without predetermined priorities.

Link to all funding opportunities: [Funding & tenders \(europa.eu\)](#)

Overview different types of ERC grants: <https://erc.europa.eu/apply-grant>

European Research Council website: <https://erc.europa.eu/homepage>

- Marie Skłodowska-Curie Actions (MSCA)

Funding for Doctoral Networks, Postdoctoral Fellowships, Staff Exchanges, Co-funding of regional, national and international programmes (COFUND).

Horizon Europe Pillar II

Global Challenges and European Competitiveness

Cluster 1 Health

The pillar is established through clusters of research and innovation activities, in order to maximise integration and synergies across the respective thematic areas while securing high and sustainable levels of impact for the Union in relation to the resources that are expended.

Areas of intervention include among others:

- Infectious diseases including poverty-related and neglected diseases.
- Healthcare systems.

Expected impact linked to these areas of intervention:

- Tackling diseases and reducing disease burden.
- Pandemic preparedness.

Main areas for international cooperation and activities to be aligned with Research and Innovation of third countries/regions at major scale or to be carried out in cooperation with organisations in third countries:

- Infectious diseases, antimicrobial resistances and public health emergencies through dedicated actions and multilateral initiatives, including One Health approaches, such as the European and Developing Countries Clinical Trial Partnership (EDCTP), the Coalition of Epidemic Preparedness Innovation (CEPI), the Global Research Collaboration for Infectious Disease Preparedness (GloPID-R) to prepare and respond quickly to public health emergencies in Europe and worldwide, and the Access to COVID-19 Tools (ACT) Accelerator to accelerate the development, production and equitable access to new COVID-19 diagnostics, therapeutics and vaccines.

Cluster 1 Health list of Partnerships in Health include:

- European Partnership on Pandemic Preparedness
- Commission services: RTD-COMBATTING-DISEASES@ec.europa.eu
- European Partnership for One Health/AMR Antimicrobial Resistance (AMR)
- Commission services: RTD-COMBATTING-DISEASES@ec.europa.eu

Horizon Europe Pillar II

Global Challenges and European Competitiveness

Cluster 3 – Civil Security for Society

This cluster responds to the challenges arising from persistent security threats, including cybercrime, as well as natural and man-made disasters. This might include opportunities related to CBRN.

Link to all funding opportunities: [Funding & tenders \(europa.eu\)](https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/support/ncp;sortQuery=country;functions=7)

Horizon Europe Pillar III

European Innovation Council

Through Pillar III, the programme will focus on supporting the development of disruptive and market-creating innovations and on enhancing European innovation ecosystems. The European Institute for Innovation and Technology boosts innovation by increasing the collaboration between business, education and research organisation, public authorities and civil society.

One of the established Knowledge and Innovation Communities tackles health.

Technical Support Instrument

The Technical Support Instrument is the EU programme that provides tailor-made technical expertise to EU Member States to design and implement reforms. The support is demand driven and does not require co-financing from Member States. It is an important pillar of the EU's initiative to help Member States mitigate the economic and social consequences of the outbreak of the COVID-19 crisis.

The European Commission, via the Technical Support Instrument, has been helping Member States with the preparation and implementation of their national Recovery and Resilience Plans.

An EU Member State wishing to receive technical support submits a request to the Commission, via a national Coordinating Authority. A request must be submitted by 31 October of each year.

One of the areas supported is:

- Health and long-term care

Example:

- Public health, disease prevention and health promotion.

European Commission webpage on the Technical Support Instrument:

https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes/technical-support-instrument/technical-support-instrument-tsi_en#howdoesitwork

Main contact points for the Technical Support Instrument for EU countries:

Digital Europe Programme

The Digital Europe Programme (DIGITAL) is a new EU funding programme focused on bringing digital technology to businesses, citizens and public administrations.

Link to all funding opportunities: [Funding & tenders \(europa.eu\)](https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/support/ncp/sortQuery=country;functions=7)

The programme includes an objective on Health (e-health).

European Commission webpage on the Digital Europe Programme:

<https://digital-strategy.ec.europa.eu/en/activities/digital-programme>

Recovery and Resilience Facility

The Facility entered into force on 19 February 2021. It finances reforms and investments in EU Member States made from the start of the pandemic in February 2020 until 31 December 2026. Countries can receive financing up to a previously agreed maximum amount. The facility is structured around six pillars, one of which is titled 'health, economic, social and institutional resilience', with the aim of, inter alia, increasing crisis preparedness and crisis response capacity.

To benefit from support under the Facility, EU governments have submitted national recovery and resilience plans, outlining the reforms and investments they will implement by end-2026, with clear milestones and targets.

The Slovenian National Recovery and Resilience Plan gives an example of the Health Pillar:

'The Slovenian plan contains large investments in hospital infrastructure to improve the effective treatment of communicable diseases in Slovenia. The plan includes two hospital infrastructure projects aimed at increasing and upgrading the capacities to treat communicable diseases in Slovenia: (a) the upgrading of the infectious clinic in Ljubljana and (b) the construction of a new infectious clinic in Maribor. Both facilities are expected to enter into use by mid-2026 and are expected to provide more than 200 additional beds for the treatment of communicable diseases'

European Commission website Recovery and Resilience Facility:

https://ec.europa.eu/info/business-economy-euro/recovery-coronavirus/recovery-and-resilience-facility_en

Information on the Recovery and Resilience Plans from the EU Member States:

https://commission.europa.eu/business-economy-euro/economic-recovery/recovery-and-resilience-facility/country-pages_en

Operational arrangements for the Recovery and Resilience Plans signed between the Commission and the EU Member States are published for most of the EU Member States on the country specific page.

Examples of EU Member State Coordinators:

- Bulgaria – Ministry of Finance
- Cyprus – Directorate General for Growth, Ministry of Finance
- Czechia – Ministry of Industry and Trade
- Greece – Greek Recovery and Resilience Agency.

The Commission established a Recovery and Resilience Tasks force (RECOVER) in charge of coordinating and implementing the Recovery and Resilience Facility.

Link to the Recovery and Resilience Task force website:

https://ec.europa.eu/info/departments/recovery-and-resilience-task-force_en

Cohesion Policy European Regional Development Fund (ERDF) European Social Fund + (ESF+) Cohesion Fund

EU Cohesion Policy contributes to strengthening economic, social and territorial cohesion in the European Union. It aims to correct imbalances between countries and regions. EU Cohesion Policy invests in health, a key asset for regional development and competitiveness, to reduce economic and social disparities. Investment may address several different areas such as Europe's ageing population, healthcare infrastructure and sustainable systems, e-health, affordable access to quality health services, health promotion programmes and cross-border cooperation.

Asylum, Migration and Integration Fund

The Asylum, Migration and Integration Fund aims to further boost national capacities and improve procedures for migration management, as well as to enhance solidarity and responsibility sharing between Member States, in particular, through emergency assistance and the relocation mechanism.

Example action:

- supporting infrastructures for the reception of third country nationals, including the possible joint use of such facilities by more than one Member State.
